# Why Businesses Choose Insurance Revolution

Excellent   Trustpilot

*\*Trustpilot rating correct as of May 2026. Ratings may change over time*

“Kevin at Insurance Revolution has been outstanding throughout the process of setting up commercial insurance for my new business. He was attentive from the first contact, arranged £10M Public Liability cover through a reputable underwriter, and turned around certificate amendments same day when I needed specific details updated. Nothing was too much trouble and he never once made me feel like just another policy number. Exactly the kind of broker you want when you're launching a business and need things done properly. Highly recommended.”
